

CAMERA SYSTEMS

EC7000B-WK Gemineye™ 7.0" Colour Wireless System

The Gemineye™ wireless camera system features 2.4GHZ digital signal transmission and offers quality and functionality equal to wired systems. Featuring a 7" LCD colour monitor and a CMOS infrared camera, this system delivers excellent picture quality. The system is expandable to operate up to 4 separate cameras (EC2028-WC only), each with independent trigger wires and all using a wireless signal to transmit image data to the monitor. This system dramatically reduces installation complexity and expense while eliminating the potential for wires being damaged during operation of the vehicle. Quad view split screen enabled.

Features and Benefits

- Includes monitor sunshade
- Four camera expandable
- 2.4 GHZ digital wireless system
- Internal controller
- Wireless system reduces installation time
- Quad view split screen
- DVR built-in via external memory card

EC7000B-WM

approvals	FCC, CE, RoHS
voltage	12-24
power consumption (W)	7 (approx)
audio	No
day / night light sensor	Yes
dimensions	176mm x 123mm x 27mm
weight	0.67kg
temperature	-20 to +70
screen size	7.0"
mirror image	Yes
Quadview	Yes
max cameras	4
Distance	30-100 M

EC2028-WC

approvals	IP66, FCC, CE, RoHS
colour	Yes
power consumption (W)	5
microphone	No
day / night light sensor	Yes
dimensions	90mm x 60.5mm x 56.5mm
weight	0.54 kgs
temperature	-20 to +70
lens angle	120°
lens size	1/4"
infrared LEDs	18
mechanical vibration	8G
Frame Rate	25FPS
